Art Unit: 1794

1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on September 4, 2007 has been entered.

2. The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

3. Claims 1-3, 9, 16 and 20-22 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention. There is no support in the original disclosure for "having a lower side...the tank body" (claim 1, lines 9-10), which can be corrected by adding "lower paddle blades, each including" after "having" (claim 1, line 9). Correction is required.

4. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

5. Claims 1-3, 9, 16 and 20-22 are also rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the

Art Unit: 1794

subject matter which applicant regards as the invention. Each claim is misdescriptive in reciting "stirred tank" (line 1 of each claim and line 9 and last line of claim 1), which should be changed to "stirring tank". Further, "varied...variation is" (claim 1, lines 7-8) is indefinite since it is not clear what is intended by "varied in a vertical orientation". Thus, this limitation should be cancelled. Corrections are required without new matter.

6. Claim 1 is objected to because of the following informalities: In claim 1: line 1, "a" should be added after "of"; line 2, "the part of" should be changed to "said part of the"; lines 11 and 13 "a" should be changed to "the"; and line 13 "part of" should be cancelled. Appropriate correction is required.

7. Claims 1-3, 9,16 and 20-22 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, 1st and 2nd paragraphs and the objections set forth in this Office action.

8. Applicant's arguments submitted August 2, 2007, with respect to the claims listed above, have been considered but are moot in view of the new ground(s) of rejection.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Arthur L. Corbin whose telephone number is (571) 272-1399. The examiner can normally be reached on Monday-Friday from 10:30 AM to 8:00 PM.
